BOW ISLAND MUNICIPAL HOSPITAL.

NOTICE TO RATEPAYERS

In accordance with the terms of the Municipal Hospital Act, petitions were received on Nov. 14th, 1918, by the Minister of Health at Edmonton asking for the creation of a Municipal Hospital District including the territory described below.

Complying with these petitions, the Minister of Health established the Bow Island Municipal Hospital District on March 10th, 1919. Following the establishment of the District, the Municipal Councils in the said district in accordance with the terms of the Act, duly appointed a Hospital Board to prepare a scheme for the building and operating of a hospital in the said district.

The Hospital Board met and prepared the scheme outlined below. This scheme is now under the direction of the Minister of Health, to be advertised throughout the said District for a period of fourteen days, following which, providing all other conditions have been complied with, the scheme will be finally approved and a date fixed, not exceeding thirty days from the date of such approval, upon which the Ratepayers of the said District will be called upon to vote for the adoption or rejection of the said scheme. The territory included in the Hospital District is as follows:

Township 7, Range 8, north and west of Seven Persons Coulee; Township 7, Range 9 north and west of Seven Persons Coulee; Township 8, Range 8 and 9, Township 9, Range 8 and 9.
All Municipal District No. 94 Improvement District No. 93
Township 10 Ranges 8 and 9 Township 11 Ranges 8 and 9
That portion Township 12, Range 8 South of River; Township 12 Range 9 That portion Township 13 Range 9 - South of River
All of Municipal District No. 94 Town of Bow Island.

The Hospital scheme submitted by the Board upon which the Ratepayers will be asked to vote, is as follows:

1.—The Board to accept a free Site from the Town of Bow Island and to build and equip an Eighteen Bed Hospital.
2.—The location of the Hospital to be in the town of Bow Island.
3.—To supplement the revenue derived from taxation by schedule of fees as under

(a) —Bonafide Ratepayers and members of "Ratepayers' families."
One Dollar per day.
One Dollar per day, or before the 1st day of October 1919, and annually thereafter, such payment to be made on or before the first day of February, shall be entitled to the same rate per Hospital day as Ratepayers.

(c) —Operating room fees to Ratepayers and resident non-ratepayers paying the above amount (d) —Non-resident and resident Non Ratepayers failing to comply with Clause B will be charged \$2.00 per Hospital day, with operating Room charge at \$2.00 for minor and \$5.00 for major operations (e) —To create a debenture indebtedness of Forty Two Thousand Dollars (\$42,000.00) Twenty year Debentures at 7 1/2 interest. (f) —To repay Debentures by equal annual instalments of principal and interest. Estimated Revenue Hospital fees from ratepayers and resident non-ratepayers \$2,500.00
Revenue from resident non-ratepayers 300.00
Grav. fees 500.00
Assessment 18,220.31
\$21,820.31

Estimated Expenditures—Capital Account—
Debiture principal \$2,000.00
Debiture interest 2,040.00
Maintenance Nursing staff and other help \$8,700.00
Drugs and dressings 1,000.00
Heat and light 500.00
Groceries and provisions 4,000.00
Secretary-Treasurer Salary and Stationery 300.00

Bow Island Review

To The Editor.

The Bow Island Review.

Dear Sir:

Will you permit me a little space in your paper to ask a question? Why is it that the Stores in Bow Island do not close at 1 o'clock on Wednesday afternoons during the Summer Months, so as all Assistants as well as the Employers can have a much needed relaxation from the close stores and for a few brief hours enjoy the pure breathing air in pleasure in Sports, such as Fishing, Riding, Driving on horse Ball, Tennis, Etc.?

All should return to their work with renewed Health and Energy, and the work to be done would not look so tiring, in fact, would wear quite a pleasant look and the work would be better done.

And this long day Saturday would not take it out of the Storekeepers like it does at present; the Half Holiday on Wednesdays would be some compensation for Saturdays.

Besides, are we content to lag behind other enterprising Towns like Bardett who already have their Wednesday Half Holiday?

Inquirer.

Bow Island Alberta

June 9th, 1919

Mr. Editor:

I did not expect that my little note would bring forth such a strong reply, nor did I expect it from such a quarter as I was not aware that our so called "Fire Chief" was responsible for what I and others considered unnecessary use of and waste of the public funds.

The reference in my note to the two empty engines was from information from a respectable citizen who, may make mistakes but does not tell deliberate falsehoods.

But why does Mr. Hurst get to huffy over a criticism named for our "City Fathers"? Is he in our lot? And before we accept all of Mr. Hurst's letter we would suggest that he explain how and why the charge deteriorates in three months or six months or even a year or if it really deteriorates to any extent if properly charged and the engine O.K.

Yours respectfully,

Ratepayer

Mrs. Bradner wishes to inform her customers, that the History of the World War is expected to arrive in a few days.

Mr. A. J. Bergeson returned to Bow Island on the mid-day Train from Rochester, Minnesota, where he was successfully treated but he still has to be very careful.

EDITORIAL**Home Life on the Farm**

In solving the problem, now almost universally recognized, of checking the tendency of boys and girls to move to the cities and leaving their parents on the land, the farm home must play by far the most important part. Even in the cities the right kind of a home is the greatest restraining force in keeping young people from drifting to far away places and pastures new. It is the most powerful of influences, and nowhere will the influence of a good and comfortable home, and the right kind of home surroundings, be found more potent than on the farm.

In a new country like Western Canada, which is just emerging from the crudeness of the pioneer stage, it is inevitable and altogether natural that in the earlier years of its development the farm home should be small and lacking in those many little comforts and attractive features which appeal so strongly to youth. It was necessary that the land should first be broken, essential farm equipment secured, a water supply made available, some horses and livestock gathered together, and the necessary buildings provided for their care. Usually, therefore, the first farm home was little more than a shack in which to eat and sleep. It possessed few comforts and was the reverse of attractive, and, incidentally, in many instances, there were few neighbors, with a resultant great loneliness. It is small wonder that it failed so frequently to hold the boys and girls when they reached their later teens and approached young manhood and womanhood.

Too frequently, perhaps, even after the farm had reached a certain stage of development, and the farmer was beginning to make a comfortable material sense, he had become so absorbed in his farm operations that all his available money and credit was utilized in buying more and more livestock, more land, and erecting larger and better farm buildings, while the house and its equipment was overlooked and neglected. All too frequently the complaint was heard from the wife and mother and the growing children that father seemed to think only of the farm itself and the things required by him to extend and improve the farm operation. It was hard to persuade so much on his part as to the farmer's absorption and keenness in his farm.

Nevertheless, such a policy is a mistake even one from the farmer's own standpoint. The farmer's family is at his best, active, and it does not respond to his call to have splendid equipment in the way of farm machinery, great barns, well fenced land, and all labor-saving devices in his own work, while his family lives in a shack or inadequate cottage which is dwarfed into insignificance

and shamed by these larger possessions. The farm home should be made as speedily as possible the most attractive feature of the farm. The wife and mother should be supplied with their little labor-saving devices in the home which so materially assist to convert housework from mere drudgery into pleasure. She will thereby be enabled to give greater attention to her children, while the girls will grow up without that repugnance for farm life which so many farm-bred girls now feel.

A telephone should be installed and should largely eliminate that feeling of isolation, and bring the whole family circle into closer touch with friends and neighbors. A few good books, picture, magazines, and the district newspaper will help to brighten the farm home, while, if it is possible, a piano musical record machine will provide the boys and girls with those pleasures at home which lead them to longingly towards the cities in order to enjoy.

In a word, the farmer should not overlook every opportunity to make farm life attractive to his boys and girls in order to inspire and encourage them to remain on the land and take what is rightfully their due in dependent life anyone can lead in these times. And in his effort to make the farm, and farm life, attractive, he will soon discover by a little observation that he has the greatest of all inducements in a happy, comfortable, and attractive home. Little money and time spent on flower seeds, trees and shrubs and their care will pay dividends just as truly as that spent on land.

Make the farm home attractive and the boys and girls will be loath to leave it; leave unattractive and lacking in comfort and those things which give pleasure and they will be anxious to get away from it and will take the first available opportunity of doing so.

CHILDHOOD CONSTIPATION

Constipated children can first be helped by taking the use of Baby's Own Tablets. The Tablets are small but they have the power which never fail to regulate the bowels and stomach, thus driving out the constipation and indigestion, colds and simple fevers. Concerning them Mrs. Clapp, Daigle, 24 Maple Street, Chicago, Ill., writes: "My little boy, who was suffering from constipation and colic, has been cured by the Tablets. He is now healthy and now he is the best of health. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Ont."

Stamps Higher in China
Washington, District of Columbia. —Owing to the fluctuation in the rate of exchange between the United States and China the Post Office Department has instructed its post offices at Shanghai and other Chinese cities to make a flat charge of two to four cents for postage stamps when sold for Chinese money. That is, a one-cent stamp costs two cents in the Chinese equivalent. When sold for gold, the charge is the same as in the United States.

Sweet and palatable, Mother Graves' Worm Expeller is acceptable to children, and it does its work quickly and promptly.

Treasure Returned**To Belgium**

Was Kept for Safety in the Bank of England
The Belgian treasure, consisting of state documents, savings bank securities, bullion, gold and silver, which have throughout the war been in the safe keeping of the bank of England, have now been returned to Belgium. They represented the savings of the Belgian nation in the peace era, amounting to many millions. The Cockrell Line, Mark Lane, London, were the high school yard in the Mark Lane strasse at night.

Several girls who were accused of making tri-color roses for the counter-revolutionists, were executed. The presiding judge of the revolutionary tribunal, which orders the executions, it is said, is a former Jesuit, aged 22 years.

Many bodies of men, women and girls of the better classes have been found on the shores of islands in the Danube below the city. It is reported that they were arrested in the residential quarter of Budapest and were thrown into the Danube by the Guards who were taking them to prisons in Budapest.

Pro-colonial troops, the reports said, are expected to move on the coast from the south. White guards and counter-revolutionists are preparing to cross the river Thesus, where they have taken positions evacuated by the Rumanians who were withdrawn to the Bessarabian front.

Victory is worth nothing except for the fruits that are under it, in it, and above it.

Condition of French Troops at Odessa**Naval Forces Are Emaciated as the Military**

Paris, France. —A terrible indictment is brought against those responsible for the conduct of operations in the Near East, in so far as the French army is concerned, by Gustave de Kerguer, deputy, and an avowed supporter of the mission to inquire into the position of the eastern military and naval forces by the budget, army and marine commissions.

As a result of observation, he declares the Armée d'Orient no longer exists, and in an article which the Matin publishes he describes the condition in which he found the French troops at Odessa and in the camps of Taurante, Ica and Salonika. Two regiments, he says, would have sufficed to save the Crimea and to keep control of the Black Sea.

He adds that the naval forces are as emaciated as the military and that crews being lacking, demoralization orders could not be obeyed except to the fact that, whatever the government may imagine, ships cannot be manned without men. The result of the lack of organization, concludes the naval report, is that France has lost in the East the benefits of the victory she had obtained and the prestige, which the magnificent march of the eastern army against the Bulgarians and Turks and Austro-Hungarians, and which earned the German defeat, and earned for her name, Mr. Kerguer, speaks of the heavy disappointment at the French failure and the cry of a starving population to France for bread.

Boon to West**New Hudson Bay Route Would Reduce Haul**

Ottawa.—Mr. F. E. Bowden, chief engineer of the Department of Railways and Canals, who has had experience of the Hudson Bay and believes in the feasibility of the route, gave evidence before the special committee of the senate, which is making a general inquiry into the possibilities of that region. He said it was possible that the route might be used to the navigation stage by establishing aid to navigation. Wireless and aircraft would greatly assist vessels in keeping clear of ice floes.

Liners, however, were almost precluded from the route on account of regard to ice, and from the point of view of the facilities at Port Nelson, he would only recommend that vessels of 2,000 tons carrying capacity should be placed on the route.

Larger vessels could not be accommodated in the harbor, he said. He was unable to say definitely whether the rate on grain across the Atlantic would be lowered by the Hudson Bay route, as the rate would be too problematical, and also it would be utterly impossible to get 100 to 150 vessels on the route as the government had thoroughly demonstrated its feasibility. Private owners would not put on their vessels before. He pointed out the value of the short haul to Hudson Bay by rail from the western provinces as far as animals were concerned. The great weight by rail would be avoided, and it had been found that the loss on vessels in the weight of animals was negligible.

Reign of Terror**In Budapest City****Girls Accused of Making Tri-Color Roses Executed**

Vienna.—Many persons accused of being counter-revolutionists are being executed in Budapest by the Hungarian communists, according to dispatches here. The victims usually are shot in front of the Hungarian parliament in the day time or in the high school yard in the Mark Lane strasse at night.

Several girls who were accused of making tri-color roses for the counter-revolutionists, were executed. The presiding judge of the revolutionary tribunal, which orders the executions, it is said, is a former Jesuit, aged 22 years. Many bodies of men, women and girls of the better classes have been found on the shores of islands in the Danube below the city. It is reported that they were arrested in the residential quarter of Budapest and were thrown into the Danube by the Guards who were taking them to prisons in Budapest.

Pro-colonial troops, the reports said, are expected to move on the coast from the south. White guards and counter-revolutionists are preparing to cross the river Thesus, where they have taken positions evacuated by the Rumanians who were withdrawn to the Bessarabian front.

Victory is worth nothing except for the fruits that are under it, in it, and above it.

Are Looked On As**Old Tried Friends****Do the Kidney Pills Have Earned****Their Popularity by Their Cures.****Alberta Lady Who Suffered From Kidney Trouble for Ten Years Is Now Recommending Dodd's Kidney Pills to Her Friends.**

Tolland, Alta., June 2nd.—(Special) "I can recommend Dodd's Kidney Pills to anyone who needs a remedy for sick kidneys," says Mrs. F. M. Walters, a well-known and highly respected lady living here. For many years she has suffered from kidney trouble, and she has found relief from Dodd's Kidney Pills.

"I suffered from kidney trouble for ten years. I felt heavy and sleepy after meals. I was always tired and I had a bitter taste in my mouth, especially in the mornings. I was often dizzy, my memory was poor, and I was very irritable. The joints, backache, headache, and rheumatism were all very annoying to me."

"I was told to try Dodd's Kidney Pills and I took two boxes. I found them satisfactory in every way. I do not now feel heavy and sleepy after meals. I am always fresh and I have a better taste in my mouth. I am also free from all my troubles."

"I am now recommending Dodd's Kidney Pills to my friends in thousands of Canadian families. Ask your neighbors about them."

Italian Aviator Killed

Captain Paul, one of the best Italian aviators, has been killed while flying in the Mont Blanc region. Caught in a snowstorm, his aeroplane crashed near Mount St. Maurice. He had accomplished one hundred and forty war raids, among them the famous Vienna expedition with the "Assommo" squadron. His aeroplane had been hit many times by enemy fire. "D'Annunzio used to call him the 'infatigable eagle'."

Ask for Minard's and take no other**Germany in Favor****Of Disarmament****Agrees to Disarm Ahead of All Other Powers**

Berlin.—Information has been received from unimpeachable sources that Germany is prepared to be made by Germany to the peace conference will declare in favor of military disarmament, saying that Germany is prepared to reduce her forces to 300,000 men within two months after the conclusion of peace, and by the expiration of an armistice to reduce the size of the army down to 200,000 men.

It will be declared that in spite of internal disorders and the necessity for defending her frontiers, Germany thus agrees to disarm ahead of all other powers. It is pointed out that this gives adequate proof of Germany's determination to renounce all militaristic and imperialistic tendencies.

Very Quarrelsome Neighbors

Names of the parties are Corns and Toenails. Both were unhappy till the trouble was remedied by Putnam's Corn Extractor. Any corn goes out of business in 24 hours if "Putnam's" is applied—try it, 25c at all dealers.

Second Dead Sea**Once the Most Famous of Shell-Fish Areas**

London.—A sea in which nothing but live has come into being off the southeast coast of England. It is a second Dead Sea.

Pegwell Bay is where the Dead Sea was. It was once the most famous of the shell-fish areas. Its downfall is traced to the sinking of an oil tank steamer early in the war. The vessel was torpedoed one night, and thousands of oil drums of crude oil flooded over the Downs. The odor of the oil led many to believe that a German gas attack was pending.

The oil swamped the banks of shrimps, mussel, whelk, and caused more poison to invade the shellfish beds, the shrimps, the bring waters, and now the whole area is a second Dead Sea.

If any food-making shellfish lives it is contaminated, and must not be eaten, and the public are warned against gathering up shellfish from the Ramsgate rocks and shores of Pegwell Bay.

The doctor who gets out of patients is apt to lose his temper.

The good die young and the other kind when they can't help it.

W. N. U. 1266

Identifying Twins**Reports Only Differed in Initials of Their Names**

One of the greatest war problems of the London Scottish Regiment was how to distinguish Ralph Brown (now dead) from his brother Linday. They were twins and indistinguishable, and so strikingly alike in every way that it was hardly possible to distinguish one from the other. Early in their military training their officers were puzzled that an official order was sent to Ralph commanding him to grow a moustache to distinguish him from Linday. After passing through all the grades of non-commissioned rank, the brothers had the distinction of being promoted to commissioned rank together in their famous corps. In all their courses of training equal attainment marked them. Out of a school of 500 officers they were two of four officers specially recommended to the War Office for merit, and they were informed that their reports only differed in the initials of their names.

Only One "BROMO QUININE"

Try the most famous for sale name LAX. It is the only one with the signature of E. W. GROVE. Cures a cold, headache, and all other ailments.

Airmen Form Provincial Association**Airmen Form Provincial Association****Regina, Sask.—Airmen of Saskatchewan have formed a provincial association known as the Air Services Association of Saskatchewan, to which aviators of all the allied provinces are welcomed as members. The object of the association is the promotion of the interests of aeronautics and aerial navigation in this province. Owing to the great distances and the lack of roads and railways in the unsettled parts of the province, it is claimed that aerial navigation can play an important part, especially in the delivery of mails and light express.**

The Terror of Asthma comes like a thief in the night with its dreadful choking, robbing its victim of breath. It seems beyond the power of human aid to relieve until one is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. It restores better living, and if the remedy be used persistently, to cure the case is put permanently to rest. Take no substitutes.

Vessels Loading Relief Food**Shipments Will Carry All Devastated Countries Through to Next Harvest****New York, N.Y.—In the ports of Boston, New York, Philadelphia and Baltimore alone are 44 steamers loading cargoes of food bound for Europe, under direction of the American Relief Administration, thus indicating that the American relief, particularly for the newly liberated countries, is now in its final stages. These shipments and those to follow, it is expected, will carry all of the devastated countries through to the next harvest. Belgium has been able to dispense with the relief commission since May 1, and with the new harvest the other newly-liberated countries are expected to begin to stand alone with respect to food.****Keep Minard's Liniment in the house**

Our lives are like buildings going up, and every one who comes to us, whether for a prolonged stay or only for a few moments, puts something into the walls or into the adornment. Our friends, if they are worthy, exert a measureless influence over us.

Appreciates the Compliment

"I wouldn't marry the best man living."
"I'm sorry you feel that way about me, but I appreciate the compliment."

WORLD HAPPENINGS

PROTECTION AGAINST POGROMS ASKED BY JEWS

PARIS, June 10.—Jewish delegations from Great Britain, Italy, the United States and other countries throughout the world submitted to the peace conference proposals for the protection of the minorities in Bulgaria, Poland, Rumania, Russia and other eastern and central European countries.

They made also proposals for the payment of indemnities for victims of pogroms and pensions for widows and orphans created by such atrocities.

LAPLAND OFFICERS

HALIFAX, N. S., June 10.—Among the officers on the Lapland which sailed yesterday were: Major G. E. Corbett, New Westminster; Major H. B. King, Vancouver; Lieut. William Armstrong, New Westminster; Lieutenants K. Barr, P. J. Bartholomew, P. Cowan, G. W. Cripps, C. Blacklock, Vancouver; Lieut. Collins, no address; Cadet D. M. Johnston, Vancouver; Cadets T. P. Carmichael, P. J. Jones, Vancouver; Cadet R. Lewis, Victoria; Alts: Lieut. H. W. Case, Prince Albert; Cadet R. A. Fort, Lethbridge; Lieut. D. P. Morris, Saskatoon.

WON'T PROBE TITLES IN OLD COUNTRY

LONDON, June 9.—(Reuters).—In the house of commons, Brig.-Gen. Croft asked the prime minister whether he would appoint an immediate judicial inquiry in order that evidence may be taken under oath in regard to allegations that titles were recovered in return for monetary contributions. Right Hon. Bonar Law, government leader in the house, replied: "The answer is in the negative."

Municipal Hall Insurance.

WHY YOU SHOULD INSURE IN YOUR OWN COMPANY.

The Hall Insurance Board, elected under the provisions of the Municipal Hall Insurance Act has established headquarters in Calgary with Office at the Canada Life Building. Officials are farmers of many years standing, men who have had practical experience on the land, as Municipal Officers, and with hall insurance. The adjusters have already been appointed and everything is in readiness for the season's operations. Those who are taking advantage of the Act and insuring their crops with the Board are assured of a square deal.

There are many reasons why the farmer of Alberta should support this plan of Hall Insurance. Space will not permit to give all the details, but a few can be enumerated that will show the farmers that to be insured with the Board is absolutely the best plan.

(1) THE FARMER'S OWN COMPANY. It is endorsed by the U. F. A., by Municipal conventions, and by the majority of the organized municipal districts of the Province.

(2) INSURANCE AT ACTUAL. There are no commissions to be paid to agents and no profits to be paid to shareholders.

(3) ABSOLUTELY FAIR ADJUSTMENTS. The staff of adjusters appointed by the Board are all farmers, everyone of them having crops of their own that may be hailed out to-morrow. They would be adjusted by some other farmer consequently it would not pay them to make anything but fair adjustment with those they are dealing with.

(4) SETTLEMENTS MADE PROMPTLY. The Board has arranged for sufficient funds to take care of any amount of business. They have a credit of \$1,000,000.00 and can get as much more as they require.

DE A CASH PROPOSITION ON A CREDIT BASIS.

The rate is 10% on the cash proposition, but the premium is payable at any time until December 15th. The rate is only sufficiently high to pay the losses in full, and the cost of administration, and to provide a small surplus for the better carrying on of the business. Everything else being equal, it is a matter of dollars and cents to the farmer. The line companies, by their own fingers, have made big profits during the last five years in the Province of Alberta. There is no reason why the money should not be retained in the pockets of the farmers, and at the same time they will receive the same protection on their crops under the municipal hall insurance plan.

If any further information is desired apply to the Secretary, Treasurer or your municipal district, or to the Hall Insurance Board, Box 140, Calgary, Alberta.

Notice to Ratepayers M. D. Forty Mile.

Notice is hereby given that all parties having old and dry weeds on their land and on the road allowance adjacent thereto must destroy same before June 15th.

J. M. Gibbons Sec. Treas.

Notice to Ratepayers Burdett Co. S. D. 23.

A meeting of all ratepayers called for Sat. June 21st, all requested to be present as matters of vital importance to be discussed. To be held in the School at Burdett at 8 p.m.

J. F. Hamilton chairman

F. A. Lombard Secretary

We are informed that Kong Koo has not yet been charged with being a dwelling house in the Town of Bow Island.

Mr. D. Neasham went on the noon train today Friday for Vancouver, but will return to Bow Island about the 1st. August.

MUNICIPAL DISTRICT BOW ISLAND No. 94

A Regular meeting of the Council held in the Municipal Office, at Bow Island June 7th, 1910.

Present: Reeve Henderson Deputy Reeve Gragg, and Councilors Chisholm, Hyland, McGregor and Pool.

The meeting was called to order at 2:30 p.m. with Reeve Henderson in the chair.

No. 1. A. Gragg. That the minutes of the last meeting be adopted as read.

No. 2. A. Gragg. That the Reeve be authorized to exchange the three iron plants at present owned by the Municipal District for three No. 1 Wood Beam Pumps.

No. 3. A. W. Chisholm. That the amount of Mr. Werts be referred to the Municipal Solicitor, and that the Reeve and Secretary be instructed, to proceed as directed by him.

No. 4. R. L. McGregor. That the master of the completion of purchase of the Office property be adopted as read.

No. 5. W. Hyland. That the following accounts be paid.

No. 8. G. A. Pool. That Reeve Henderson and Councilors Chisholm, Hyland and McGregor be appointed a Committee to look over the possibilities for providing a road out to town from his land, for Mr. Marsden, and that the Committee meet at Mr. Chisholm's home at 2 o'clock p.m. on Monday June 13th.

No. 9. G. A. Pool. That a contract be signed by Mr. Wm. Donaldson Jr. permitting the council to erect a new catching fence on his land the S.E. 1/4 10-12-4th.

No. 10. R. L. McGregor. That the meeting do now adjourn, to meet again on July 25th.

Carried

THE HEART OF HUMANITY.

With the opening of the doors of the Ritz Theatre, on Saturday June 25th, Bow Island will be treated to the first view of the mammoth screen production "THE HEART OF HUMANITY". It is the 3rd time in history that a picture of this magnitude has been devoted entirely to a Canadian subject. It was conceived and produced with a great love for the men and women of Canada, and the Mothers of Canada. The action covers a period of five years, taking its characters from their homes on the Athabasca River, bringing them through a period of hope and love, suffering and sacrifice with a beautiful conclusion in which the spreading dawn of a happier tomorrow unfolds them in a great and lasting security and peace. An elaborate musical score presented by a Symphony orchestra, will greatly enhance the beauty and appeal of the picture.

Burdett.

If the owners of the pigs raised by the town of Burdett don't immediately look after and enclose them. There will be a killing bee and the meat distributed amongst the Citizens. So owners get busy.

Mr. L. Shang wishes to say that business is good.

The Burdett Base Ball Team is about the most active team in the country and preening hard. They are open for all comers.

Mr. Geo. Lomas, Butcher, attended the Shriners' Ceremonial Meeting at Calgary last week. He returned to Burdett last Wednesday.

Mr. Ira Fletcher is here from Mearth on business.

Mr. B. Perry returned on Thursday from the Mountains where he has been staying for the benefit of his health.

Miss I. Anderson is spending the week end in Calgary.

Three Cars full of pleasure seeking from Burdett motored to the Forks of the river yesterday, the weather being very favourable.

McClary

Symbolic of Canadian Ideals

CANADIANS demand in manufac-
tured products a high standard of
excellence in keeping with Canada's
National Ideals.

The McLaughlin—"Canada's Stan-
dard Car"—is symbolic of these
ideals because of its beauty, effi-
ciency and popularity.

Built in Canada by Canadian work-
men for service on Canadian high-
ways, McLaughlin cars by their
exceptional service have won an
enviable reputation among discrim-
inating motorists.

Nels Lemberg may well be proud of
his crop this summer, he certainly
has the best patch this side of the
track. The recent rains helped
matters wonderfully for him.

Rev. Herring held a burial service
at the home of Bruce Marsden Tues-
day of last week, where Mr. Alex
Niven passed away that morning.
Much sympathy is felt for the bereaved
relatives at ranch.

The river which was in full flood
last week is daily resuming its ordi-
nary proportions. Fishing meanwhile is
on the wane, we expect to see the
banks lined with cars, and despite of
Irene Walton lining the shores in
quest of the funny tribe.

Mr. Geo. Mondas was out Sunday
last, endeavoring to locate suitable
pasture for his three breeds. This
country is a "wax-ey" this season
so people who seek to take in stock to
pasture, found to their sorrow an
everlasting source of trouble to both
neighbours, their fences and crops
and receiving very little remuneration
for services rendered. We think it
about time the govt. came to the
farmers aid and fenced off a govt
grazing reserve, say one each park in
every district or township, where the
farmers in that belt could turn out
their horses and cattle for summer
months, and save much trouble and
expense, to say nothing of conserving
their herd.

Winnifred News

Mrs. Harvey Davis gave a little
dinner June 1st, on King George's
Birthday to a few friends plates, were
laid for eight.

Madame P. Mercier of Red Lake
Minn., who has been visiting her
daughter Mrs. Harvey Davis, left
Monday to visit her son A. J. Mercier
at Lethbridge.

Mrs. O. T. Scott is nursing at the
home of Mrs. Tom Godfrey.

Mr. & Mrs. Wilfred Parker were visit-
ing in Medicine Hat this week.

Robert Smith is working in the
post office this week during Mr. God-
frey's absence. Mr. Smith has just re-
turned from France while overseas he
was wounded only once.

The Local Missionary Society have
paid for hymn books to be used by
the Presbyterian Church and they are
very much appreciated.

There is 15 and 18 inches of moisture
in crop fields and in some places 6 to 8
inches on the raw prairie. Cut worms
have done very little damage in this
district. Very little flax remains to be
sown. A large amount of breaking
and summer fallow will be done this
season. Both grain and grass are
growing fine and the stock is pro-
gressing fine; this is the talk among
all the farmers.

Mr. Tom Godfrey the post master
has been indisposed last week suffer-
ing from a spell of nervousness as the
results of being gassed, while overseas.
Frequently he is taken with a harr-
ing affection which causes nervous-
ness, his many friends are glad to
know he is able to be out again.

Local and General

Mr. J. Watson of Grassy Lake was
visiting in the Hat last Monday to at-
tend an important Convention.

Gerald Duhaime and Casey James
arrived in Halifax last Monday from
Kennebec Camp, England they came
over on the S. S. Lapland. Gerald
Duhaime is expected to arrive in Bow
Island about the 25th of this month,
as he will stay off for a day or two at
Winnipeg to take in the sights there.

ICE CREAM SOCIAL

The Ladies of the United Church
will hold an "ICE CREAM SOCIAL"
outside the church on Wednesday
June 28th, in the evening. The Town
Band will play.

On Friday June 8th, Walter T.
Brophy, farmer south of Bow Island,
was fined \$5.00 and costs for theft of
a loaf of bread and a tin of lard, the
property of Joseph Schell who has
Brophy's farm rented.

Mr. Peter Lamash and Mr.
Johnston J. P. tried the case.

Mrs. G. Bruce went to the Hat last
Friday morning on a business trip
with her son and will get medical
advice in the meantime, as her son
Arnold has not been feeling well for
some time.

No More Troops for Russia

Allies Would Furnish Munitions and Money

New York. The Associated Press

Anti-Bolshevik factions in Russia,

headed by Admiral Kolchak and Gen.

Denikin, are to receive conditional

recognition by the Council of Four,

according to a report in circulation in

Paris. The condition is said to be

that the governments of the leaders

are to convolve and accept the verdict

of a genuine constituent assembly,

which is to determine the future form

of government for Russia.

Such action by the Council of Four

would enable the allies to assist in the

struggle against soviet rule in Russia

by furnishing Kolchak and Denikin

with arms, munitions and money and

food on a larger scale than previously.

No troops would be furnished the

anti-Bolshevik leaders, according to

the report.

The report is said to have been

discussed at the Council of Four

last night.

Coldest Village

For generations, popular conception

pictured the North Pole as the coldest

place on earth, although scientists

and explorers have proved otherwise.

In fact, Hansen and other explorers

said that 45 or 50 degrees below zero

was the coldest weather for the 75th to 80th

parallels. Barrow, Alaska, however,

55 miles below Fort Gibbon, has several

times hit the 87 and 88 mark be-

low zero, and is therefore believed to be

the coldest spot in the north, if not

in the world.

Attack on League of Nations From

New Point of View in U.S.

Congress

Washington.—An attack on the

League of Nations as offering grave

dangers to the future was made in the

Senate by Senator Reed, Democratic

of Missouri, who declared that under

the covenant in its present form na-

tions governed by other races would

have the predominating voice.

The senator presented statistics to

show that the total population of the

countries composing the league

81,425,500 would be of black, yellow,

brown and red races, with only 289,

800 of the white race. In the as-

sessment which would be the governing

body, he said white nations would

have native representatives and

white nations seventeen representa-

tives.

The senator said that the

League of Nations was a

"booby trap" for the white

nations.

The senator said that the

League of Nations was a

"booby trap" for the white

nations.

What is "Drunk"?

Drinkers Are More Liable to Disease

Than Abstainers

When a man is drunk every cell in

his body is drunk. The body is com-

posed of millions of living cells, each

having its own particular work to do.

When a man is more or less drunk he

is neither efficient nor capable of do-

ing his work properly. When a cell

is drunk it cannot perform its func-

tions efficiently.

One duty of the red blood cells is

to carry oxygen. The duty of the

white blood cells is to fight the dis-

ease carriers. When the oxygen car-

riers are drunk the system is poisoned

by waste matters that should have

been burnt up by oxygen. When the

carriers of disease germs are drunk

infection is liable to occur.

The British War Office is authority

for the statement that animals that

are immune to certain diseases—that

is, cannot be infected even by immu-

nization—lose that immunity and are

infected if given a dose of whis-

key 24 hours before inoculation.

Drinkers are more liable to disease

than abstainers, and when ill they

have a much poorer chance of recov-

ery. This is so well established that

the greatest medical conventions and

schools of health are opposed to the

use of alcoholic liquors in the treat-

ment of disease. Whiskey and brandy

have been removed from the United

States Dispensary, which contains the

official list of medicines used in the

States. Hundreds of medical men

are opposed to the use of any form

of alcohol in the treatment of dis-

ease. Several states of the Union have

prohibited its use even as medicine.

When these facts are generally

known, it will be few who will in-

dulge in alcohol in any form, or in

any dose. A great effort must be

made to spread this truth. We must

teach ourselves to run the risk of

losing what we have gained by years

of hard work.

The British War Office is authority

for the statement that animals that

are immune to certain diseases—that

is, cannot be infected even by immu-

nization—lose that immunity and are

infected if given a dose of whis-

key 24 hours before inoculation

SAY YOU SAW IT IN
THE REVIEW

Bow Island North

Mr. Pete Bar who has been assist-
ing Mr. Chas. Thompson with spring
work, returned to his own farm by
the river, Saturday evening to resume
similar work thereon. Mr. Thompson
had we hear about 190 acres sown at
that date.

We are glad to report that the fish
are biting in the river and the bait
(grasshoppers) very much in evidence
along the river bottoms, several good
catches are reported. Help to beat the
High Cost of Living by eating fish; they
are a good brain food, specialists
claim, so those who have a deficiency
in grey matter should follow this
advice, it is free.

Pete Bar has finished seeding his
land and intends breaking up a new
field for next year. He also hopes to
summerfallow a small area later on.

Mr. John Pezars who recently sold
his splendid farm near Good Cheer
School, has returned for a few days.
He intends we hear, going on a fishing
trip as soon as conditions will permit.
Will let you know a new fish story
when next we meet. Oh! John is a
real fisherman and don't you forget it.
Good luck attend thee, John.

Mr. Hessel Evans of "Golden Grove"
farm is at present spelling the beautiful
landscape in the vicinity of Art
Lindquist's homestead. He intends or
rather hopes to accomplish the dam-
aging process, within a few days, to
the extent of twenty acres.

Breaking seems to be the order of
the day, besides our young friend
Renzel, Mr. W. J. Little is breaking
a nice field on his Handel quarter half
mile west of Pete Negeki, who also
has disturbed the earth's surface in
his pasture, going on a piece we see
Mr. Emerson our new neighbor busily
breaking up the school section, much
to the annoyance of those who used
the old short cut across this parcel of
land, since it is the way of the world,
we can't complain, also that the short
cut wasn't ours by right of discovery
anymore.

Quite a number of stray horses are
wandering around this district, some
branded, and others not, but most of
their carry brands caused by the
disturbance of barbed wire fences, some
are certainly highly efficient in the
art.

Mr. Wm. Currie our enterprising
neighbour is busy plowing his
summerfallow; he is using a tripple
disc gang, and is accomplishing a very
nice job, evidently the disc plow will
force to the fore in this district,
where the soil is of a sandy nature,
not so heavy as that further south.

Mr. Chas. Thompson is busy break-
ing up the balance of his "Boss"
quarter, he has most of his land under
cultivation on his home farm, and
his wheat fields are looking dandy in
comparison to some of his neighbours.

Mrs. B. C. Thompson together with
Mrs. Alf E. Adair visited Mr. and Mrs.
Gen. Mondt last Thursday evening.

Monday night we experienced a re-
vulsion of the previous Thursday
storm, only this later one was accom-
panied by excessive thunder and light-
ning as had as this commodity threat-
ened, the rain which fell in torrents
did much good. The soil is thoroughly
saturated now and much is to be
gained by the welcome visitation of
such a down pour.

We note the Antelope across the
river are having their fawns now; this
was expected as the big band had
split up and paired off a few weeks
ago.

Mr. Art Lindquist was hunting
horses Tuesday last week, and after a
fruitless search, happened to locate
them at Adair farm, where the horses
had been down and they were quite at
home in his extensive pasture.

Mr. Kenny Hamilton was a visitor
to the L. T. Hatch last week. He
expects to be up to their Bow river
ranch by end of present week.

SADDLES

A Saddle may or may not be an absolute necessity on a farm
but how many things have you bought which were less useful?

A good saddle will last 15 years or more. Figure up the num-
ber of times a year that a saddle would save you time and
money, then figure up how many years you are likely to need a
good saddle, then come in and select the one that suits you from
Our Stock.

If we haven't one in stock to suit you we will gladly have it
made for you (Costs no more)
